FULL ACCESS CABINETRY

FINISHES - INSPIRATION - CONSTRUCTION

About Us

Eclipse Cabinetry utilizes ultra-efficient frameless construction, resulting in full-accessibility to the cabinet interior. Inspired by the innovation of European cabinetry, our cabinetry easily adapts to a wider range of styles. Whether you like sleek and modern or traditional cabinet design, Eclipse Cabinetry can produce the look you desire.

With our full-access construction, you gain up to 10% wider drawers and openings than a traditional face-framed cabinet. Storing and accessing all of your things is efficient and simple.

Eclipse offers an extensive collection of wood types as well as specialty materials like laminates, acrylics and specialty veneers. Our color selection features stains and paints with glazes and distressing features as well as high gloss and matte finishes in our specialty materials. This all adds up to over 600 possible color combinations, so your perfect color is waiting. With so many choices, it may be a challenge deciding on just one, so don't be afraid to mix it up with several colors.

Browse this brochure for ideas, but remember, this is just a small sample of what we can do. We offer customization of cabinets including custom paint colors, proving that your imagination is the only limit. Consult with an Eclipse Cabinetry retailer for more information.

// Paint Finishes

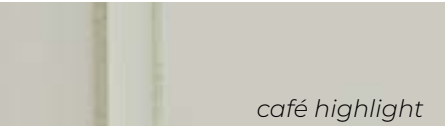

Color is everything, and painted finishes provide limitless possibilities, which is why Eclipse Cabinetry offers so many choices. Our diverse collection of standard paint colors is only the beginning. For those with a particular color in mind, our custom paint program lets you choose from the entire Sherwin Williams' palette of paint colors. Consult with a retailer for more details.

 <i>arctic</i>	 <i>polar</i>	 <i>pure white</i>	 <i>eggshell</i>	 <i>light french gray</i>
 <i>soft white</i>	 <i>beige</i>	 <i>amazing gray</i>	 <i>mindful gray</i>	
 <i>repose gray</i>	 <i>shoji white*</i>	 <i>unusual gray</i>	 <i>dovetail gray</i>	
 <i>niebla azul</i>	 <i>slate tile</i>	 <i>outer space</i>	 <i>quietude*</i>

 <i>rookwood shutter green*</i>	 <i>pewter green</i>	 <i>iron ore</i>	 <i>black</i>	

*2025 Trend Color

Highlight Options on Paint

Eclipse also offers an additional finish technique on paint. Available on most paint colors, our highlight option adds an extra level of character for a more antiqued appearance. Variation of intensity is common and expected with the highlight technique.

 <i>café highlight</i>	 <i>slate highlight</i>

// Gloss Materials

Gloss Acrylic

Gloss Acrylic features a deep, high-gloss surface for an ultra-sleek appearance. Featuring a color-matched PMMA (acrylic) top layer that enhances color vibrancy, we use a matching zero-joint edge-banding technology for a near seamless finish. Also available are a 3D edge, Satin Aluminum-look edge, or Brushed Aluminum-look edge. Cubanite, Gabbiano, and Bigio have a subtle, metallic flake look which reflects light and gives a shimmer to the surface. Available on Metropolitan door style only.

Gloss HPL

Gloss High Pressure Laminates (HPL) have a durable, high-gloss finish for today's contemporary styling. Our Gloss HPL colors feature zero-joint edge-banding technology for the ultimate in sleek appearance. HPL products are available in Metropolitan door style only.

// Matte Materials

Matte Acrylic

The Matte Acrylic surface features a color-matched PMMA (acrylic) top layer with a velvety, low-luster finish. This product is fabricated using zero-joint edge-banding technology for a near seamless edge. Available with either Matching edge, Satin Aluminum-look edge or Brushed Aluminum-look edge. The Matte Acrylic product is perfect for mixing with gloss or textured finishes, creating the perfect balance in any space. Available on Metropolitan door style only.

slate velvet (matte acrylic RAUVISIO Noir)

Matte HPL

Matte RAUVISIO noir is a monotonic matte finish. RAUVISIO noir has the ability to retain all of its elemental properties while delivering unwavering resilience, reliability and richly uninhibited elegance, giving you the quality you deserve with the versatility you desire. The deeply light-absorbent surface is crafted to be anti-microbial, ultra-low in VOCs and phenol-free. It withstands scratches and fingerprints while providing the deepest, touchable matte finish.

// TFL

Thermally Fused Laminates (TFL) are textured to simulate wood grain and represent modern interpretations of wood veneers. Their versatility is outstanding and allows for easy mixing with other colors and textures. Edge selections are Matching, Satin Aluminum-look or Brushed Aluminum-look. TFL material is available in a horizontal or vertical grain orientation on the Metropolitan door style only.

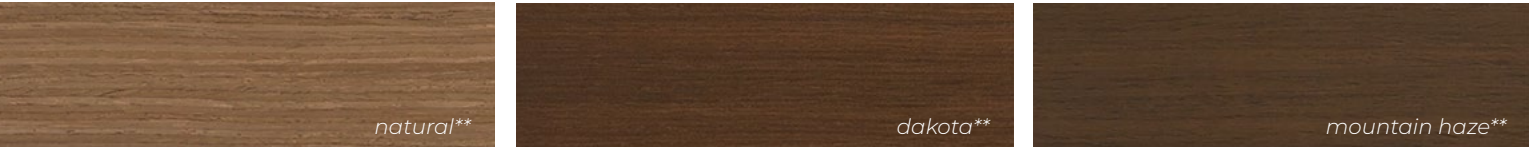

// Reconstituted Veneer

Reconstituted Veneers are made using sustainable hardwoods layered together to produce a beautifully patterned veneer that is dyed to resemble Quartered Walnut or Rift White Oak in appearance. This process provides an ecologically sustainable veneer with exceptional consistency in graining and a modern appearance perfect for current trends. Eclipse only offers reconstituted veneers on the Metropolitan style door. Available in vertical or horizontal grain (size limitations apply for horizontal grain).

Reconstituted White Oak

Reconstituted Walnut

** not available with a glaze or highlight

// Polymer Veneer

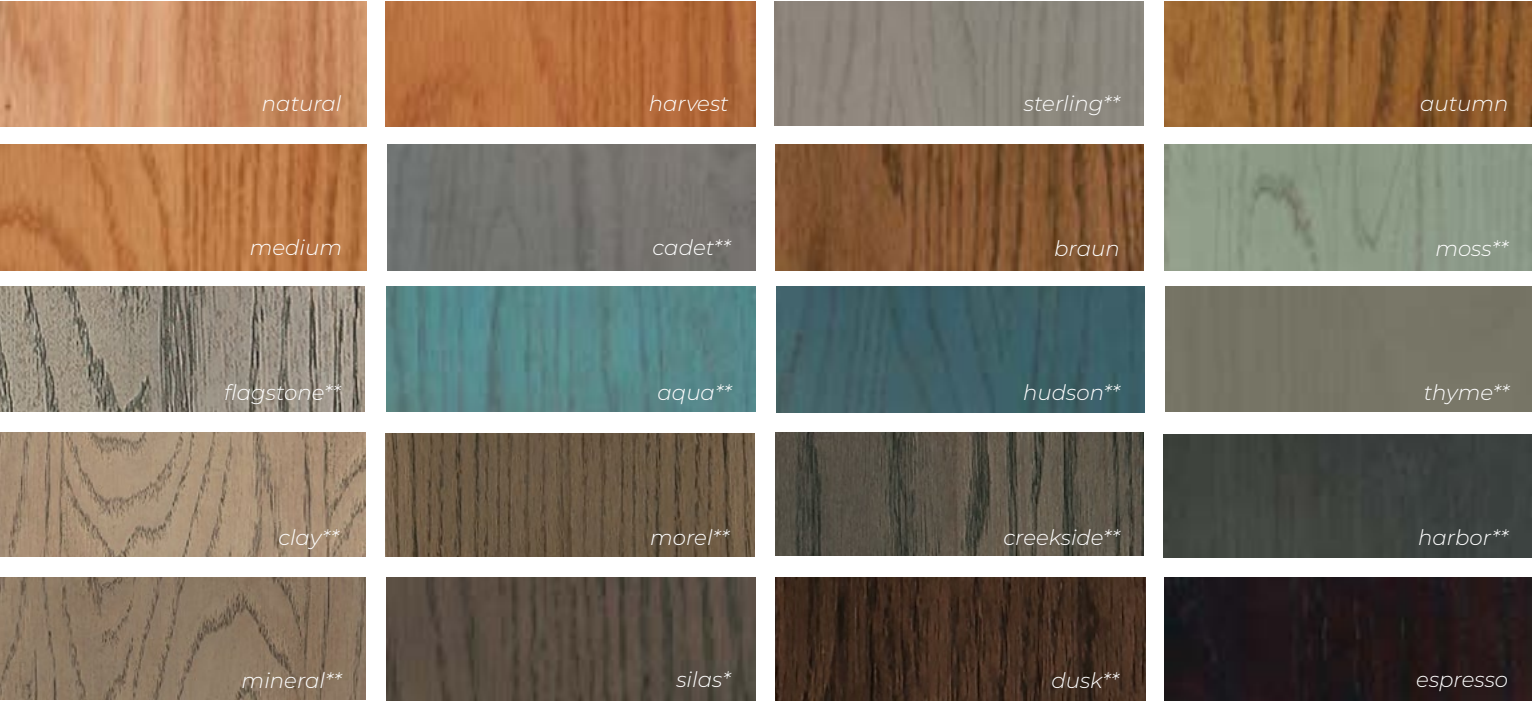

Polymer Veneers have the feel and appearance of a natural veneer with exceptional durability and aesthetics. Polymer Veneers feature UV resistance that minimizes color fading from sun exposure and a Nano-Coated surface which resists scratches. Polymer Veneers come standard with color matching polymer edge banding. Be sure to view an actual sample in a showroom. Available exclusively on our Metropolitan door style.

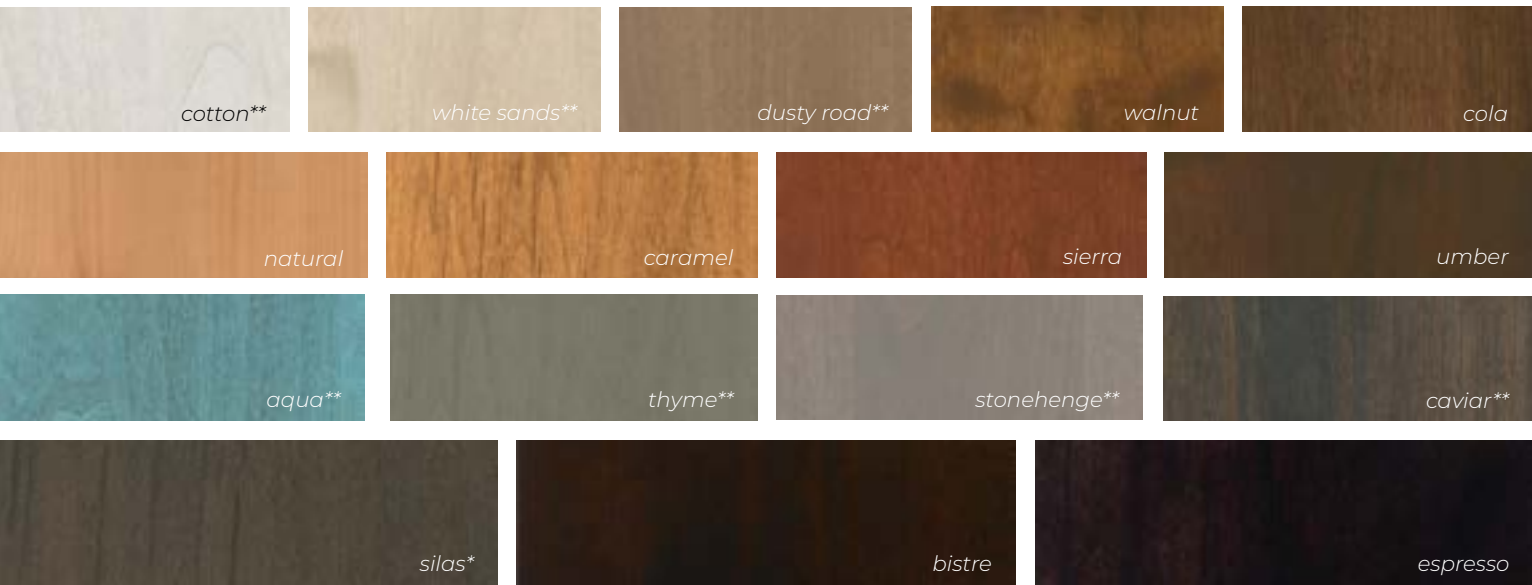

// Stain

The beauty of wood is showcased with our carefully selected palette of stains. Our staining process enhances the various wood species that we offer, resulting in a beautifully finished piece of furniture for your home. When you add a glaze or highlight to one of our stains, you add an extra layer of depth and a change to the color tone, for even more possibilities. From traditional colors to modern interpretations, with Eclipse Cabinetry we are sure you will find a finish you love.

Glaze & Highlight Options on Stain

By choosing a glaze or highlight, you add even more character to the finish. With several options of glazes or a subtle highlight, our hand-wiped process adds a layer of color that changes the underlying stain for a deeper, richer appearance. As this is a hand-applied technique, variation in the amount and location of glaze material will vary from piece to piece and within the same piece. Variation adds to the character and should be expected.

// Door Styles

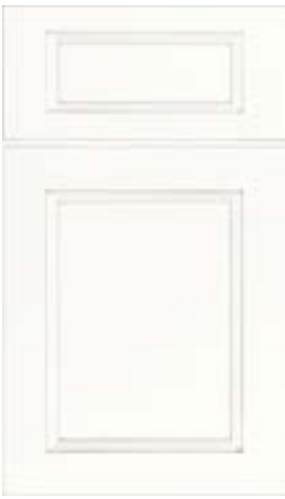

All of the Eclipse door styles are available in our full lineup of wood selections in stained or painted finishes. Our reconstituted veneers, TFL's, HPL's and Acrylics are only available with the Metropolitan door style. Excluding the Metropolitan door, our door styles are available with several different drawer front options. Each door style in the following section is shown with it's respective matching five piece drawer front, unless otherwise specified. For questions about drawer front and door style compatibility or availability, consult with your local retailer.

// Eclipse Construction

Eclipse Cabinetry is built with a unique, full-access construction inspired by European cabinetry. With this construction method, you get an efficient cabinet that maximizes the useful storage space. Our full-access construction gives you up to 10% wider door and drawer openings over a framed cabinet. More importantly, we utilize 3/4" thick material in our cabinet box construction, resulting in a more rigid cabinet than many of our competitors.

- 1. 3/4" thick top, bottom, and side panels*
- 2. 3/4" thick adjustable shelving*
- 3. 3/4" thick hanging rail*
- 4. PVC edge banding, color coordinated**
- 5. Durable, easy-to-clean interior in a natural, white, or linen-look laminate depending on product selected. (See retailer for more information)
- 6. Hinges are Blum CLIP top BLUMOTION soft-closing with easy adjustment
- 7. 3/4" x 4" wide stretchers for added stability & strength
- 8. Standard guides are Blum TANDEM edge 7/8 extension with integrated BLUMOTION soft-closing mechanism (optional Blum TANDEM full extension guides with integrated BLUMOTION soft-closing mechanism)
- 9. Multiple drawer box options (see below)
- 10. Choose from thousands of door style, material and finish combinations.

Drawers

Eclipse offers multiple drawer boxes so you can pick the one that fits your style - from traditional to contemporary. The standard drawer boxes available are the 5/8" Dovetail Drawer box or 5/8" Simulated Metal Drawer. The 3/4" Dovetail Drawer and Blum LEGRABOX Stainless Steel Drawer Box are premium options.

5/8" Dovetail Drawer Box

5/8" Simulated Metal Drawer Box

Guides

Drawers come standard with Blum TANDEM edge, 7/8 Extension, BLUMOTION self-closing undermount concealed guides. Blum TANDEM full extension, BLUMOTION soft-closing undermount concealed guides are a premium option, except for LEGRABOX drawers, for which full extension is included.

(Full Extension Guides Included)

*Plywood upgrade option available in some species. Limitations and exclusions may apply. See retailer for more details. It will consist of a plywood core with MDF outer bands for consistency and stability. Some materials and finish selections not compatible with plywood option, so substitute materials will be used where applicable.
**PVC Edge-Banding is selected from available material to provide the best match possible. The edge-banding is not an exact match and may be noticeably different.
Construction and product specifications subject to change without notice and may vary from information shown above.
